

Enfocus Review - Release Notes v14.1

Script ID: EnfocusReview

Version: 14.1

Improvements & Fixes:

1. Fixed an issue where files in Review v14 were not continuing in the workflow after approval.
2. Resolved a bug that caused multiple WebSocket processes to start for the same Enfocus Cloud token.
3. Corrected the expiration behavior of anonymous shared review links. The expiration time now correctly matches the due date specified in the app properties.
4. Implemented enhancements to reduce the frequency of the "Process stopped unexpectedly" error
