

# Adobe Acrobat Distiller

This app drives Adobe Acrobat Distiller. It converts a PostScript or EPS file into a PDF file. The resulting PDF file flows along the data output connections; the Distiller log file flows along the log output connections.

## Compatibility

Acrobat Distiller XI, DC Classic (2015, 2017 and 2020) and DC Continuous (2015, 2017, 2018, 2019, 2020, 2021 and 2022)

## Keywords

If you enter one of the following keywords in the Search field at the top of the Flow elements pane, the **Adobe Acrobat Distiller** app will be shown in the list:

- PDF
- PostScript
- EPS
- distiller
- create
- convert

## Connections

This app requires at least one incoming connection and at least one outgoing data connection.

## Properties

Property	Description
Element type	The flow element type: Adobe Acrobat Distiller. This property is useful to identify renamed flow elements. It cannot be changed.
Name	The name of the flow element displayed in the canvas.
Description	A description of the flow element displayed in the canvas. This description is also shown in the tooltip that appears when moving your cursor over the flow element.
PDF settings	The Adobe PDF Settings used for creating PDF files. You can select a settings file from the Distiller library of PDF settings, browse for a file, define single text with variables or use a script expression.
